

Conservatives Concerned | About the Death Penalty

Statement of Support to End the Death Penalty

We have come to the conclusion that the death penalty does not work and can't be made to work, not in spite of our conservative principles, but because of them. There are many reasons why growing numbers of conservatives are questioning the death penalty. Some of us are concerned that instead of making us safer, capital punishment has proven to be a costly and ineffective government program. Others of us are concerned that the death penalty makes too many mistakes. Still others are concerned that the death penalty has no place in a culture seeking to promote life. In light of its track record, we call on our fellow conservatives to reexamine the death penalty and demonstrate the leadership needed to end this failed policy.

Signed,

Jeremiah Baky
